Summary

Seeking a challenging career opportunity to utilize my diverse skill set and contribute to the success of a dynamic organization.

Coding Profile

Solved over 350+ problems in [LeetCode](#)

Technical Skills

- Programming language: C++.JavaScript
- Framework and library: React Js,Next Js, CSS, HTML, Node Js, MongoDB,Prisma ORM
- Version Control and Tools: Git and Vs Code.

PROJECT :

1-B&E (Blog and Earn):

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js)

Link: <https://blog-and-earn-frontend.vercel.app>

Developed a MERN-based blogging platform featuring user authentication, content creation, and browsing. Key features include superchat and transaction tracking, social interactions (follow, profile visits), and a 1000-coin signup reward. Optimized performance using **Recoil** for seamless state management.

2-Code Miner:

Tech Stack: Next.js, Shadcn

A stats-driven platform where coders can create personalized scorecards by entering their username to view coding stats of leetcode.

3- Course Selling Platform(ongoing):

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), Shadcn UI Library.

Developed a MERN stack-based course-selling platform with a focus on intuitive design and user experience. Key features include:

- Course Listings and Search: Users can browse and search for courses across various categories.
- User Authentication: Implemented secure signup, login, and logout functions to protect user data.
- Course Purchase and Enrollment: Users can seamlessly purchase courses and track enrollment status.
- Elegant UI: Used Shadcn for a modern, user-friendly interface.

Education

| | |
|--|------------------|
| Graphic Era Hill University , Haldwani | 2022-2024 |
| Master of Computer Application | (UTTARAKHAND) |
| MBGPG (affiliated to KUMAUN University) | 2018-2021 |
| Bachelor of Science, Mathematics | (UTTARAKHAND) |

INTERESTS

- Building personal projects
- Problem solving

Achievements

- Awarded **Mr. Fresher** of MCA (Batch 2022-24)
